

APPENDIX C

FEATURE ATTRIBUTE TABLES

The Feature Attributes recorded in the Feature Summaries for each of the features excavated by ARS on Block 1 are summarized here in two tables for quick reference and comparison of the features.

Table C.1. ARS Block 1 Features – Location, dimensions and volumes includes the physical dimensions of the features (length, width, depth and an estimated volume).

Table C.2 ARS Block 1 Features – Stratigraphy and catalog entries provides information about the stratigraphy of the feature (if there was any) and the number of artifacts cataloged by ARS and by Stanford.

Table C.1. ARS Block 1 Features – Location, dimensions and volumes
